EC CERTIFICATE
OF FACTORY PRODUCTION CONTROL

č. 1020 – CPD – 070040847

In compliance with Council Directive 89/106/EEC of 21 December 1988 on the approximation of laws, regulations and administrative provisions of the Member States relating to construction products (the Construction Products Directive or CPD), as later amended, it has been stated that the construction product:

**Welded cold-formed hollow sections made of plain steels
with strength and quality grades S235JRH, S275J0H, S275J2H,
S355J0H and S355J2H according to ČSN EN 10219-1:2006**

**as supporting constructional elements designed for manufacture of metal components, steel
and reinforced-concrete constructions**

- type / variant:
- round-shaped cross sections in the range of 22,0 to 89,0 mm
in thicknesses from 1,5 to 4,5 mm
 - square-shaped cross sections in the range of 15 x 15 mm
to 70 x 70 mm in thicknesses from 1,5 to 4,0 mm
 - rectangular cross sections in the range of 30 x 15 mm
to 80 x 60 mm in thicknesses from 1,5 to 4,0 mm

placed on the market by

STEEL PROFIL s.r.o.
Ovocný trh 572/11, 110 00 Praha, IČO: 28130065

and produced in the factory

STEEL PROFIL s.r.o.
Školní 266, 330 26 Tlučná, IČO: 28130065

is submitted by the manufacturer to the initial type-testing of the product, a factory production control and to the further testing of samples taken at the factory in accordance with a prescribed test plan and that the notified body No.

1020 - Technical and Test Institute for Construction Prague

has performed the initial inspection of the factory and of the factory production control and performs the continuous surveillance, assessment and approval of the factory production control.

This certificate attests that all provisions concerning the attestation of factory production control described in Annex ZA of the standard

EN 10219-1:2006

were applied.

This certificate was first issued on December 22, 2010 and remains valid as long as the conditions laid down in the harmonised technical specification in reference or the manufacturing conditions in the factory or the FPC itself are not modified significantly.
